Nearly twice the size of Australia, Antarctica is our closest neighbour to the south, but it is isolated from us by the world's stormiest ocean.

Come on a journey to Antarctica where the land is covered in ice and fringed with icebergs. Learn about how and when the icy continent was discovered, the current issues affecting it and the impact of human exploration and endeavour on it. This series is supported by a wealth of maps, diagrams and historical and contemporary photographs.

Key features:

- * Spectacular photographs of historic sites and scientific bases
- * Diagrams and maps
- * Fact boxes providing extra information related to the text
- * A glossary to explain new or difficult words
- * Ideas for internet research and further reading
- * An index.
