

# Australian Habitats

**NEW  
FOR  
MARCH**

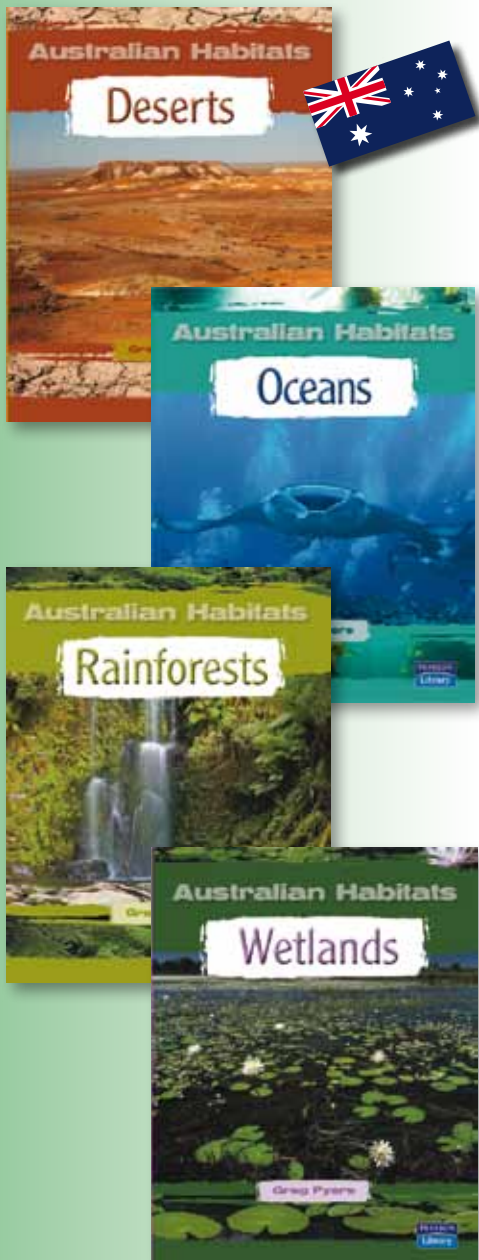

Author: G Pyers  
RRP: \$29.95  
Extent: 32 pages  
Age Level: 7 to 12 years  
Format: 265 mm x 195 mm

Australia is a diverse continent, with vast areas of sun-baked desert, lush green rainforests, and inland and coastal wetlands. On all sides it is surrounded by oceans. These habitats support a very rich variety of plant and animal life.

Each book in the **Australian Habitats** series investigates a particular type of habitat: its plants and animals and the way they interact, how it has changed over time, the influence of people on the habitat, and how we can help conserve it.

## Key features:

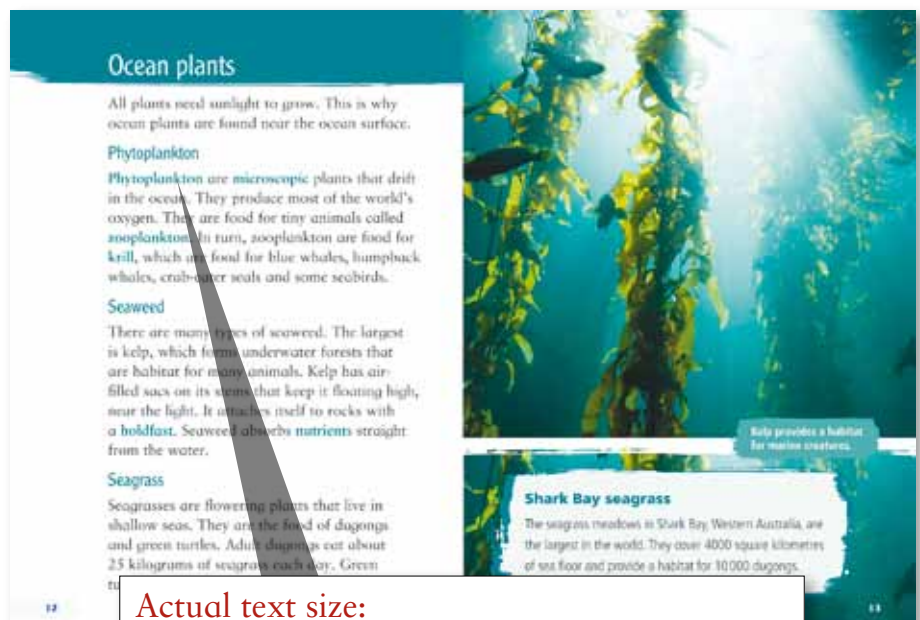

- \* Stunning photographs, illustrations and maps
- \* Interesting fact boxes
- \* A case study of an important habitat
- \* Unique 'Day in the Life of...' sections that bring the habitat to life
- \* Ideas for internet research and further reading
- \* A glossary that explains new and difficult words and phrases
- \* An index

Deserts	978 1 4425 2424 8
Oceans	978 1 4425 2425 5
Rainforests	978 1 4425 2426 2
Wetlands	978 1 4425 2427 9

## Curriculum Links:

*These books link with the National Curriculum at Levels 1 and 2 in Science and Studies of Society and Environment.*
